TELE2022

2nd International Conference on Technology Enhanced Learning in Higher Education

May, 26-27 2022 Russia, Lipetsk

The pandemic has starkly highlighted the fragility of education systems, even those considered relatively stable. The 2nd International Conference on Technology Enhanced Learning in Higher Education **(TELE2022)** focuses on the wide range of topics related to IT in education, workplace and industry-based learning, open, flexible and distance learning. We hope that the conference will be a space to join engineers, teachers and researchers to share their experience and report the best practices.

TELE2022 program includes topics of interest that consist of, but are not limited to:

I. Computing & IT Education

Smart classroom, virtual and remote labs, robotics in educational sphere
Innovative learning spaces
IEEE Standards in the classroom

II. Workplace and Industry-Based Learning

Effective learning activities, innovations, methodologies and practice
Adult, lifelong learning and professional development
Interdisciplinary, multidisciplinary and transdisciplinary learning experiences

III. Open, Flexible & Distance Learning

Online/E-learning/M-learning spaces
VR/AR technology
Infrastructure and educational technologies
Open educational resources, courseware

Submission of Papers

The working language of the conference is English. Prospective participants are requested to electronically submit full papers of their work (limitation is 6 pages) following the instructions available on the website via EasyChair system. Each participant has to be author or co-author no more than three papers. Accepted papers will be submitted to IEEE Xplore online digital library (published by the Institute of Electrical and Electronics Engineers). Each accepted paper must be presented at the conference to be published in the proceedings. The final manuscript must be accompanied by a registration form. In case of non-presence at the conference the registration fee will not be refunded.
